

Ethical charter of diving

The diving center respectful of wildlife is committed to :

1. Always prioritizing animal welfare and biodiversity preservation before its own interest.
2. Respect and make the rules respected (safety, distance, behavior, etc.).
3. Knowledge sharing with divers (ecosystem, fauna, marine wildlife etc.).
4. Respect the natural cycle of wild animals (resting, birthing...).
5. Limiting as much as possible its presence near wildlife and promote passive observation (disturbance, quality rather than quantity of divers).
6. Do not interact physically nor touch wildlife. Maintain your distance.
7. Observation can never be guaranteed, this is nature.
8. Assess diver skills - As safety concern and to avoid further harm onto the environment it is everyone's responsibility to maintain his/her knowledge and skill levels through consistent education. (buoyancy)
9. Limit the diving practice within overcrowded areas (adjust diving schedule accordingly).
10. Provide suitable diving gear according to the dive type and location (current) and secure the equipment carried to avoid any damage to the environment.
11. Ensure the diving boat, doesn't anchor in seagrass and seaweed (mooring buoy) or into any place that can harm the environment.
12. Manage natural resources (fresh water) as especially within fragile environment where water is rare.
13. Reduce and manage pollution of all kinds Condensate (oil generator) waste, sunscreen, wastewater, equipment, etc.
14. Support local associations for species conservation, their environments and cohabitation with wildlife.
15. Do not enter in any collaborations that harm biodiversity.
